

# ERASMUS+ TRAINING COURSES & STUDY VISITS

## TRAINING COURSES

Training Courses are organized for active youth workers who are curious to learn more about a certain topic and enhance their skills.

This type of course normally lasts 1-2 weeks and brings together up to 50 motivated youth workers around topics that are a challenge to our societies.

The activities are led by experienced trainers using non-formal education methods, like interactive workshops, games, outdoor activities and much more.

## STUDY VISITS

A Study Visit are aimed for youth workers who are curious about youth work practices throughout European organizations to critically engage with these practices.

Within the structured program, study visits normally include excursions to NGOs or other institutions.

Youth workers can thus exchange experiences and practices relevant to their working context, and gain some inspiration for short or long term development of their work.

## What else you need to know:

- All costs for accommodation, food and activities are covered by the Erasmus+ program.
- Travel costs are reimbursed up to a certain amount.
- Participants need to buy their own travel and health insurance.
- If you need help in finding a suitable project or a suitable organization or have any questions, we are here for you.
